

DIGITAL O.P.G (ORTHOPANTOGRAM OR PANOREX)

Digital O.P.G (Orthopantogram or Panorex) is a panoramic scanning dental X-ray of the upper and lower jaw. It shows a two-dimensional view of a half-circle from ear to ear. Normally, the person bites on a plastic spatula so that all the teeth, especially the crowns can be viewed individually.

LATERAL CEPHALOGRAM

A Lateral Cephalogram (or Lat Ceph) is an x-ray taken of the side of the face with very precise positioning so that various measurements can be made to determine the current and future relationship of the top and bottom jaw (maxilla and mandible) and therefore assess the nature of a patient's bite.
