MESSAGE

Let me start by expressing my gratitude to our faculty members and students for their contribution in successfully bringing out our college News letter. I have been blessed beyond measure with love and support from friends, family and community. We strive to serve the community with best dental practices available till date without compromising their health and well being. As we work together to continually improve the academic program for all students, we also strive to make our college as one of the best institutions and more inspiring place to learn and practice the art of dentistry. Congratulations to everyone who have had noteworthy accomplishments since our last newsletter. Please take time to read our contribution to the society as well as achievements made by our well trained budding dentists.

Dr. Rathika Rai

Principal, TMDCH

COVERSTORIES

GUINNESS WORLD RECORD

In association with the department of periodontics our college is awarded with the Guinness world record for conducting "Largest dentistry lesson" on 20th September 2019 at ACS convention centre.

PEDO ZEST 2K19

On 26th April 2019, A State level conference was organized by the Department Of Pedodontics And Preventive Dentistry. More than 300 participants from various colleges in and around Tamilnadu participated actively in various academic on stage and off stage events.

INDIA CAN- ANTI TOBACCO TORCH

To create awareness for the early detection and prevention of the adverse effects of cancer among the public, the Indian Association of Oral and Maxillofacial Pathologists (IAOMP) has initiated Anti-cancer Torch which has been passed on to our college and Hospital. Cancer awareness session was organized followed by rally on 16th may 2019.

WORLD NO TOBACCO DAY

The department of Public Health Dentistry organized an anti-tobacco awareness rally at Nolambur slum area on 30th may 2019. In association with IDA, Madras branch and adyar cancer institute awareness program was organized at Elliot's beach, Besant Nagar on 31st May 2019.

On 20th of September 2019 our Department of Periodontics organized an attempt to create a Guinness Record on **“Largest Dentistry Lesson”**. Guinness world record organization work with leading global brands and businesses to break world records as part of bespoke marketing campaigns. This programme was an attempt to promote dentistry. Our team consisting of 650 students well qualified and trained, actively participated in the attempt. The event was presided over by our honourable president Thiru.A.C.S.Arun kumar and Our secretary Thiru.A.Ravi Kumar. The organization help engage audience through unforgettable moments of sheer amazement and wonder, whilst delivering bottom-line results. A guest lecture by an eminent speaker Dr. CSP Prasad for 1 hour followed by a practical model activity for 7- 10 minutes and it was performed by all 650 participants uniformly. Video and photographic evidence of this attempt from start to finish enabled them to confirm the measurements achieved and also to verify the details. The largest dentistry lesson consists of 650 people was officially awarded as a successful Guinness World Record Attempt on 25th September 2019. It is indeed a privileged and proud moment to be a part of Guinness world records.

Largest dentistry lesson

✓ PEDO ZEST 2019

State level conference organized by the Department of Pedodontics and Preventive Dentistry, was the spotlight in the month of April (26th April 2019). It was a State level conference planned from the beginning of the year to bring to limelight the hidden talents among the budding dentists of tomorrow in and around Tamil Nadu. Immense support both morally and financially was given by the Chancellor and President of Dr.M.G.R University Thiru. A.C.Shanmugam, Er. A.C.S. Arunkumar. The foundation stone for the program was laid by the Organising Chairman, Dr.RathikaRai, Principal of our college.

Eminent guest speakers were able to capture the student crowd with their mind enthralling four guest lectures in the speciality of Pedodontics. Dr.PonnuduraiArangannal, Professor & Head, SreeBalaji Dental college and hospital; Dr.VishnuRekha, Professor & Head, Sathyabama Dental college and hospital; Dr.DeepaGurunathan, Professor & Head, Saveetha Dental college and hospital gave away their mind blowing lectures.

The conference was highlighted as a platform for the students to display their talents in the various fields of dentistry. Various On stage and Off stage events were organized and some of them were the mind blowing tackle it, clever charades, J-A-M, sculpt & shoot, cast the crew, mind benders, face painting and dent craft. More than ten dental colleges actively participated in all the events with the registration count for the conference exceeding more than a triple century. Students from Sathyabama Dental College and hospital nailed the stage as stars of the show by winning the awesome overall rolling trophy.

Just as the saying goes, "We always find light at the end of the tunnel", a long rugged stony path of four months of immense hard work and dedication by the Department team with the immeasurable support & guidance by the Organising Secretary Dr.Joyson Moses, Professor and Head of Our college and hospital had led to the glorious victory of Pedozest 2019. Last but not the least, the success of PEDO ZEST, A FEST FOR QUEST, was made possible only with the blessings of our ALMIGHTY.

CDE PROGRAMS & WORKSHOPS

✓ NATIONAL PROSTHODONTIC DAY:

To spread the awareness about prosthodontic services and the importance in replacing the lost teeth to the patients, Indian Prosthodontic Society celebrates **22nd January** as the **National Prosthodontist Day**. Through the National Prosthodontist Day, IPS aims to spread awareness about the profession across the country. The faculty and post graduate students of various dental colleges came together to commemorate this day with various events. In our college, faculties of prosthodontics department conducted various events for undergraduate and postgraduate students for three days. The events included Add zap, Photography, Skit and Art with Dental Materials. The prosthodontist day function was inaugurated on 22nd January in our auditorium with lighting the kuthuvilaku by Dr T.V . Padmanaban, Dr.Rathika Rai, The Principal and HOD of Prosthodontics department, Dr.krithika and Dr.Karthikeyan Vice Principals of TMDCH and Dr.Prabhakaran , Dean TMDCH. A skit competition was conducted based on the theme “**social awareness**”. In the adzap event our students were asked to market their dental products. The digital photography competition was conducted to capture the best smiles. Art from dental materials was conducted for preclinical students. The winners of the events were judged by faculties from other departments.

✓ ORAL AND MAXILLOFACIAL SURGEONS DAY:

The department of oral and maxillofacial surgery conducted “Oral and Maxillofacial Surgery” on 13th Feb 2019. The day began with a guest lecture on “**orthognathic surgery**” and was followed by hands on demonstration. We had active participation by all the CRRI's and other department post graduates. Various events were conducted for under graduates and post graduates with a separate panel of judges for each. The day was concluded with prize distribution to the winners by our honorable secretary Thiru. A. Ravi Kumar.

✓WORLD ENDODONTICS DAY:

The department of Conservative Dentistry and Endodontics conducted “**world conservative dentistry & endodontics day**” on 13th march 2019. The day began with a guest lecture on “Periapical Surgery” by our respected H.O.D, Dr.A.R.Pradeep Kumar and was followed by Hands-On demonstration. We had active participation by all the CRRIs and other department post graduates. Various events were conducted for under graduates and post graduates with a separate panel of judges for each. The participants were awarded with CDE points.

✓WORLD RADIOLOGY DAY:

In connection with World Radiology day, a CDE program on “**Differential diagnosis on Maxillofacial Radiology**” was organized on 8th November 2019 in the department of Oral Medicine and Radiology, Thai Moogambigai Dental College and Hospital, Chennai. HOD's of various institutions shared their knowledge and experience through Guest lectures. The invited speakers were Dr.M.Arvind MDS., Saveetha Dental College And Hospital, Dr.S.Sathasiva Subramanian, MDS., SriRamachandra Dental College And Hospital, DR.K.Saraswathi Gopal, MDS. Meenakshi Ammal Dental College And Hospital, Dr.NaliniAshwath,MDS., Sree Balaji Dental College & Hospital. Postgraduate and undergraduate student toppers in the department of oral medicine and radiology were awarded certificates of appreciation. Quiz competition was conducted for the interns and OSCE was conducted for Postgraduate students on the theme of World Radiology day.

✓CLINICAL ESTABLISHMENT ACT PROGRAM

An extensive information and an update on the “**Clinical Establishment Act**” on the 7th of February 2019 by Dr. Selvakumar professor and head of the Department, Dept. of Periodontics, Madha Dental College, and Hospital.

✓CDE ON FULL MOUTH REHABILITATION:

CDE program was arranged on behalf of Department of Prosthodontics on **5th march 2019** Dr. CHETAN HEGDE Professor and Head of the Department in AB Shetty dental college, Mangalore delivered lectures and demonstrations on “**Treatment Philosophies In Full Mouth Rehabilitation**”. The program was awarded 6 CDE points by Tamilnadu Dental council. There were around 150 participants from various colleges including post graduates and faculties. The program was appreciated by PG participants as they had Hands - On demonstration on a non - working model. The event ended after evening tea .

✓CARRIER GUIDANCE PROGRAM:

Carrier Guidance Program In Indian Armed Forces was conducted by The Department of Prosthodontics, on **29th April 2019** at our college Auditorium. The guest speaker Dr. PETER DEVADOSS, MDS, Prosthodontics is a Wing Commander, with 18 years of distinguished military service, Graded specialist in Prosthodontics to command military dental centre. He was awarded THE SANYA SEVA MEDAL, THE OP RAKSHAK MEDAL, THE RASHTRIYA RIFFLES POCKET BADGE and CHIEF OF AIR STAFF COMMENDATION BADGE in 2014 INDIAN AIR FORCE. The speaker explained about the various opportunities in army dental corps. Students had an insight about the eligibility, procedure for applying in ADC, benefits of being in army services etc.

✓ STAFFS GUEST OF HONOUR'S, SPECIAL ATTAINMENTS:

- A) **DR. A.R. PRADEEP KUMAR:** (Prof & Head) - Conservative dentistry

Chairperson at POST GRADUATE COLLOQUIUM MAY 2019 & chaired a session at FINISH LINE in Sri Ramachandra Medical College, Chennai

- B) **DR. NADEEM JEDDY:** (Prof & Head) Oral pathology & Microbiology

GUEST OF HONOUR

- 1) Research priorities in Oral Precancer and Cancer At Raja Muthiah Dental College and Hospital
 - 2) 17th National Triple O Symposium, Mumbai
 - 3) PATHOSURG 2k19 SRM Dental College, Kattankulanthur
- C) **DR. RAJ VIKRAM:-** Orthodontics & Dentofacial orthopaedics: Chaired a session at 1ST EC MEETING IOS CONFERENCE NOIDA
- D) **DR. SIVASANKARI.T-** Periodontics
- E) **DR. BETTIE FAMILA-** Prosthodontics

Received cash prize from our honourable president, as a part of publication incentive scheme, for publishing their research work in SCOPUS indexed journal.

✓ FACULTY DEVELOPMENTAL ACTIVITIES:

- 1) **Dr .Manju J-** Department of Oral Medicine and Radiology-Diploma in Psychological Counselling (CCS)
- 2) **Dr.Prabhu-** Department of Prosthodontics, Crown & Bridge- Post Graduate Diploma in Medical Training (PGDMT)
- 3) **Dr.Keerthi Narayan. V-** Department of Oral Pathology and Microbiology, Post graduate diploma in Clinical Research and Pharmacovigilance (PGDCR, PGDPV)

✓ UNDER GRADUATE RESEARCH ACTIVITY PROJECTS

The Dr. MGR DST NewGen IEDC under the aegis of the national science and technology entrepreneurship development board, dept of science and technology, Govt of India, New Delhi is managed by the Dr. A.P.J.Abdul Kalam center of excellence in innovation and entrepreneurship of the university. This project enables the funding of student innovative ideas into prototypes and business plans. We are very glad that 3 undergraduate projects have been approved by Dr.MGR DST NewGen IEDC projects which were presented to advisory board on 8th february 2019. The following students 2 undergraduate projects were selected for funding by NewGen IEDC.

1) PROJECT ON **“AUTOBRUSH”**- by Dr. PRIYA GANESAN, DR. M.UZMA QUONIN, ADITHYA NAIR Under the guidance of project coordinator DR.RADHIKA.T-Professor, Dept of oral pathology and microbiology.

2) PROJECT ON **“HOLDSEN”**- by DHIVYA DHARSHINI.K, HARSHINI.P (IInd year BDS) Under the guidance of project coordinator DR.KRITHIKA.C - Professor &Head ,Dept of oral medicine and Radiology.

✓ UNDER GRADUATE AWARDS:

- a) National Undergraduate Convention- Lalith Kumar. R, won the third prize (Diagnostic tool in periodontitis GCF haemoglobin) in the poster presentation category at PERIOMELANGE 2019 – 3RD National Undergraduate Convention of Indian Society o Periodontology, held at Saveetha Dental College, Chennai on 5th & 6th April 2019.
- b) Best e-poster award at CDE program on “Biomedical Waste Management and Infection control” held on 22nd March 2019 at SRM Dental College and Hospital, Ramapuram, Chennai by Suraj and ShantoshVaidhya

c) 5th Youth Health Mela conducted by Adayar Cancer Institute and HCL technologies at Valluvar Kottam from 28th to 30th of June, 2019. The event was inaugurated by the Governor Banwarilal Purohit. The key focus areas of the YHM were the lifestyle related contributors of non-communicable diseases namely Substance Abuse (tobacco and alcohol), Diet & Nutrition, Exercise & Fitness, and Environmental & Personal Hygiene. The undergraduate students participated in extempore, cookery, collage making, sketching and poster painting. The college won prizes for best stall, cookery, poster and pencil sketching.

✓UNDER GRADUATE ACADEMIC EXCELLENCE:

S.No	Name	Title
1)	Saba Fathima	Best Outgoing Final year student 2019
2)	Saba Fathima	1 st place in IV BDS Exam 2018
3)	Nikkitha	2 nd place in IV BDS Exam 2018
4)	Magdaline	1 st place in II BDS DM Exam 2018
5)	LalithaPriya	2 nd place in II BDS DM Exam 2018
6)	AbiramiVetriselvam	1 st place in II BDS Preclinical Exam 2018
7)	Magdaline	2 nd place in II BDS Preclinical Exam 2018

SPECIAL CASES

CASE 1: *Mistakes Cannot Be Undone But Mishaps Can Be !!!*

A 42-year-old male patient reported to the Postgraduate Clinic of Department of Conservative Dentistry and Endodontics, Thai Moogambigai Dental College and Hospital for restoration of maxillary left first premolar (24). The medical history of the patient was non - relevant . He had a past dental history of endodontic treatment done by a general dentist before 3 months. On clinical examination, the tooth was asymptomatic to palpation and percussion tests. There was no mobility and no periodontal attachment loss .Dislodged composite core was present in 24 exposing two metal posts one in the buccal and one in the palatal aspect of the remaining tooth structure.

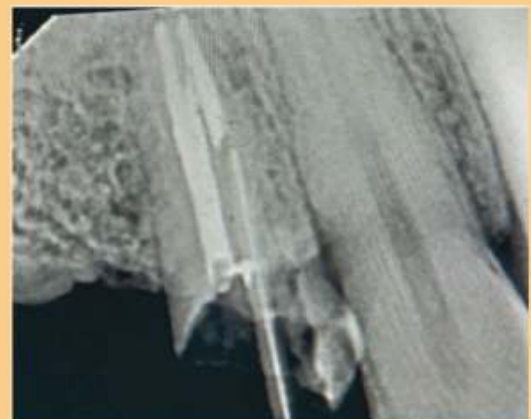

Radiographic evaluation revealed two active threaded metallic posts that had been improperly placed in the root dentin palatal to the root canals with no periodontal changes. On the basis of clinical and radiographic examination, we planned to do non surgical retreatment for 24 followed by prefabricated post and core and crown.

During the first visit, local anaesthesia was administered followed by placement of rubber dam. Composite core was removed using a high speed hand-piece to expose the posts. The posts were retrieved using an ultrasonic device with a non- coated ultrasonic tip. Post space on the palatal aspect showed no signs of perforation and was restored using type II GIC and a temporary restoration was given using Cavit G.

During the second visit, retrieval of gutta-percha was done from the root canal, Ledge in the buccal root canal in the middle third was bypassed, patency achieved and working length was determined. Canals were shaped to 30 .06 using NiTi rotary endodontic files and calcium hydroxide medicament placed in the canals for a week. On the third visit, after a period of 2 weeks, the canals were obturated with 0.02 guttapercha cones and AH plus sealer using lateral compaction technique

On the next visit postspace was prepared in the palatal canal and a prefabricated tapered passive fiber reinforced composite post luted using self-etch dual-cure resin cement followed by a composite core. Patient was referred to Department of Prosthodontics for fabrication of fixed partial denture in relation to 24 and 27 .Patient was recalled for follow up after a month and the outcome of the treatment was quite satisfactory.

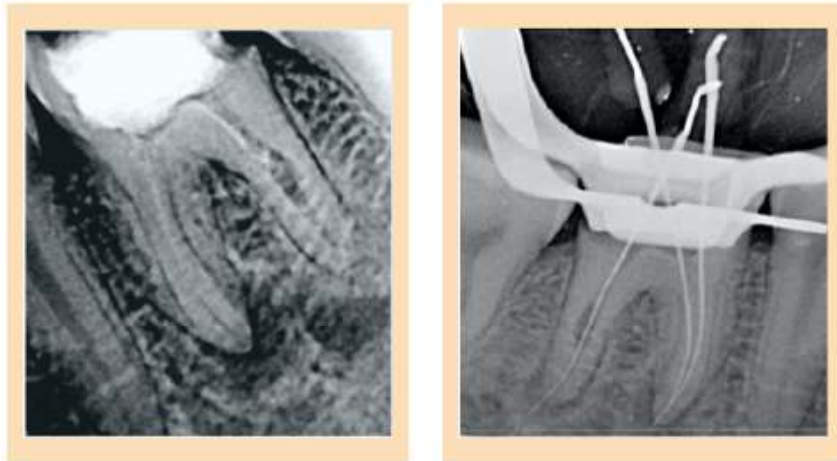

CASE 2: Can a tooth with Internal Resorption be saved ???

A 35-year-old male adult reported to the Postgraduate Clinic of Department of Conservative Dentistry and Endodontics, Thai Moogambigai Dental College and Hospital with a chief complaint of dull pain in mandibular left first molar 36. The medical history of the patient was non-contributory. Past dental history revealed that root canal treatment was initiated a year back. On clinical examination, Previously endodontic therapy had been initiated in 36 . The tooth was symptomatic to palpation and percussion tests and there was no signs of periodontal attachment loss.

Radiographic evaluation showed radiolucency in middle third of mesiobuccal root surface of the molar indicating internal resorption and an associated radiolucency in the periapical area of same tooth. On the basis of clinical and radiographic examination a diagnosis and treatment plan were formulated.

On the day of visit, local anaesthesia was administered followed by placement of rubber dam..The temporary restoration was removed and the access was refined . Patency was achieved using a 10 size K file and working length was established. Canals were enlarged upto 30 .06 using niti rotary endodontic files and calcium hydroxide dressing was placed in the canals for a week

After 7 days, obturation of the canals were done with 0.02 guttapercha cones and AH plus sealer using lateral compaction technique. A hot plugger of the desired size was introduced, shearing the points off approximately 4 to 5 mm from the apex. Vertical compaction was done using hand plugger to the apical plug of gutta-percha to fill the internal resorptive defect. The remaining canal was then back filled using thermoplasticized gutta-percha technique . The patient was recalled after 6 months. The follow-up radiograph showed peri-apical healing of 36.

CASE 3: *Crown Lengthening Using Apically Repositioned Flap*

A 35 year old Female visited the Department of Periodontics, with an intention of replacing her missing teeth. On examination, it was seen that the clinical crown in relation to 13 and 14 was short and needed crown lengthening. The biologic width was compromised but the width of the attached gingiva was adequate and so, an apically repositioned flap was planned and performed in relation to 13,14 and the bone contour was corrected in 14 and The flap was apically repositioned and sutured.

A Satisfactory healing was seen after a week and the sutures were removed and crown preparation was modified and final adjustments were done in the metal trial. The final prosthesis was delivered after a week. Restoring her back with a healthy smile.

**CASE 4: A Minimally Invasive Approach To Treat Gummy Smile:
Laser-assisted Lip Repositioning Surgery**

A 19years old Female came with the complaint of incompetent lips with gummy smile to Department of Periodontics & Implantology, Thai Moogambigai Dental College & Hospital. Diode laser with the 830 nm in 1.8 W was used in continuous brush stroke. After thorough oral prophylaxis, local Anesthesia was given (infiltration). FIRST INCISION- At the level of MGJ followed by SECOND INCISION- 16mm from the first incision.

Myotomy performed, fibres were relieved to reduce the hyperactivity of upper lip. Sutures were placed, Post operative instructions given, Medications prescribed. Healing & Competency Of Lips At Followup—15 Days, 3 months, 6 months.

STUDENT'S CORNER

✓CULTURAL EVENTS:

College festivals offer a chance for fresher as well as students who are willing to hop on to the festival bandwagon. Every student should experience this at least once during the course of their undergraduate or post graduate studies. It instils the importance of originality and individuality that are the most vital aspects of every profession. "YAAZH" 2K19 was a splendid cultural event organized by "RYSETRONZ" 2014-19 Residential Interns Batch of our college. On 14th of November various offstage events were organized involving active participants from students as well as staffs. The off stage events were followed by onstage events on 15th and 18th of November. Organizing committees were made; students and faculties were united by individual groups. About 12 events comprising of more than 300 participants were involved and made this event a successful one to remember for ages.

✓CULTURAL AWARDS:

MOKSHA, a massive cultural event conducted at Shri venkateshwara dental college from 19th to 24th march 2019. The event includes cultural, scientific and sports activities. From our college around 160 undergraduate students actively participated in all the cultural, sports and scientific events. We are proud that many of our students won prizes in all major events. We turned as runner-up in basketball, bagged 2nd prize in face painting, guru shishya, canvas painting and many more events. Our students proved their educationally sound knowledge by winning paper presentations in Oral surgery and also in orthodontics.

MIDAS-FEST 2K19- IDA- Indian dental association Madras branch in association with Tagore dental college organized 11th scientific and cultural festival on 21st and 22nd of october. MIDAS FEST, the annual inter college cultural festival of IDA Madras Branch has grown on to become one of the biggest and most popular college festivals amongst the dental colleges in chennai. It is a conglomeration of scientific, sports and cultural events for the student members of IDA Madras Branch spanning over a seven day extravaganza. Our college undergraduates and postgraduates participated in all the events and won many prizes.

✓FOREIGN LANGUAGE CLASSES:

Our college is privileged to adapt skill development programme to our undergraduate and also post graduate students by organizing a foreign language classes on GERMAN, FRENCH and SPANISH.

About 38 undergraduates (14 students in GERMAN, 17 students in SPANISH and 7 students in FRENCH) actively attended the classes and gained knowledge in various languages. The classes were conducted by experts in respective languages across India. The 30 day course was concluded by written examinations, oral viva-voice for evaluating their skills acquired. The students obtained higher grades and successfully cleared with flying colors.

PUBLIC HEALTH CAMPS

✓BLOOD DONATION CAMP.

The Department of Public Health Dentistry in association with Lions Blood Bank conducted a blood donation camp on 06th March 19 at ACS medical College and Hospital as a part of Dentist Day celebration and birthday occasion of Thiru. A.Ravikumar, Honorable secretary. There was an enthusiastic participation from both the staff and students. About 115 participants registered for blood donation and blood was taken once they pass the fitness test. Donors were acknowledged with a certificate of appreciation and a donor ID card.

✓WORLD HEALTH DAY

The Department of Public Health Dentistry, Our College in association with Care & Welfare foundation organised a World Health Day program on "Organ Donation" on 10th of April 2019. The program highlighted the importance of organ donation and around 40 people including staff and students pledged for organ donation.

✓NSS CAMP

The NSS wing (Department of Public health Dentistry) of Our College and Hospital – Dr. MGR Educational And Research Institute , Chennai Conducted a 7 Day camp at Adayalampattu Village from 23rd march 2019 to 29th march 2019. . Staff of Department of Public health Dentistry, Our College, volunteers of 1st and 2nd BDS and interns performed various tasks over a period of 7 days.

✓ "INDIA CAN" - ANTI- CANCER TORCH

Oral cancer or Mouth cancer is a major public health problem in the Indian subcontinent. It is the 11th most common cancer globally and 2nd most common cancer in India. The low income groups in India are affected most due to a wide exposure to risk factors such as various forms of smoke and smokeless tobacco products. Not using tobacco can prevent most oral cancer. However, one in four people diagnosed with oral cancer has no risk factors. It is important to see your dentist regularly for screenings. In order to create awareness for the early detection and prevention of the adverse effects of cancer among the public, the Indian Association of Oral and Maxillofacial Pathologists (IAOMP) has initiated Anti-cancer Torch which travels from Kashmir to Kanyakumari. The torch has been passed on to our college (Dr.M.G.R.Educational and Research Institute, Maduravoyl, Chennai). The rally was held on 16th May 2019 and was graced by our secretary Thiru.A.Ravikumar who was the chief guest.

The programme was conducted under the guidance of our Head of the Department who is also the Hon. Secretary of IAOMP Dr.NadeemJeddy. Our Principal Dr.RathikaRai, Vice-principal Dr.Krithika, Dr.Karthikeyan and Dean Dr.Prabhakaran took active part in the rally. A large group of students and staffs marched carrying placards which displayed the ill effects of tobacco and smoking and promoting the cessation of the habit and even slogans were raised insisting the cessation of the habit thus promoting a better life. Also a cancer awareness session was organized where the students reached out to the patients in ACS Medical College.

✓WORLD NO TOBACCO DAY

Awareness Program on World No Tobacco Day was organized by our Department Of Oral Medicine And Radiology on 31st may 2019. The event was presided by Guest lectures on Tobacco Related Oral Mucosal Lesion by Dr. T N Uma Maheswari MDS Professor , Department Of Oral Medicine And Radiology Saveetha Dental College And Hospital and on Tobacco Cessation: Principles & Practice by Dr. C.V. Divyambika, MDS , Associate Professor Department Of Oral Medicine And Radiology Sri Ramachandra University. Competitions includes Pencil sketching competition, Slogan writing competition on “Tobacco cessation” and Quiz competition for final years and interns were conducted for the undergraduates and postgraduates on the theme -World No Tobacco Day.

The department of public health dentistry also organized an anti-tobacco awareness rally at Nolambur slum area on 30th may 2019. A dental screening camp and door to door distribution of pamphlets was also done. In association with IDA, Madras branch and adyar cancer institute conducted an anti-tobacco awareness program at Elliot's beach, Besant Nagar on 31st May 2019. Models and charts expressing the ill effects of tobacco were on display at the venue. The students performed role play skit enacting the harmful effects of tobacco. They were also involved in a human chain formation and distributed anti-tobacco pamphlets to the general public.
